Fastclean

Fastclean is a flexible screw conveyor for automatic extraction of dust from the dust collector discharge hopper to a dedicated container for their disposal. Fastclean can be supplied with single or double intake.

Versions:

- Big Bag discharge (1000 liters - 264 Gal)
- Barrel discharge (180 liters - 42 Gal)
- Both discharges can be either manual or automatically activated

Fastclean can be integrated with any kind of dust collectors. Max length 6 meters (20 ft)
